Aren't you suppose to be out of the office? Stop working so hard. ☺

I am the only chemist trained in both drug analysis and chemical threat samples and protocols. So, my director has assigned me to write all the procedures and guidelines for both labs as well address the matters of the Bullecoming Decision with the AG's office. The future goals of this lab are to become accredited and have all the chemists follow standard procedures according to the DEA (for Drugs) and FBI/ATF/ICE (or Drugs and chemical agents.)

Basically, I am applying my knowledge on paper to educate and train the other chemists.

Thanks for the heads up. We'll figure out the scheduling as the date approaches.

Thanks

Annie

Hello all –

This is an oxy trafficking case that is scheduled for an argument on joinder (of the two cases) on 9-27-11. Technically [REDACTED] already has a trial date of 10-3-11 but I expect that will be postponed until at least a couple weeks later. I just wanted to flag this case for you – if they are joined, I will need all three of you, and wanted to see if there were particular dates that did not work for you that I would need to stay away from when picking a trial date.

This is a complex, multi-witness case, so there could be some flexibility as to the order in which you were called. Let me know when you have a chance.

Dave
